

MAKING TRACKS

Peter has a great time making tracks in the snow. Think about the different ways Peter used his feet to make the following tracks:

DRAW THE KIND OF TRACKS PETER WOULD MAKE IF HE:

Ran with big steps

Hopped on one foot

Hopped on two feet

Walked on his hands, with mittens on

What tracks would his dog Willie make?

How about Amy's parrot Pepe?

Can you use your body to walk in a way that would create some of these patterns? On the back of this page, draw a shape you could make in the snow using your whole body.
